

St Paulinus Pre-School

St Paulinus Centre,
Hillcrest Road,
Marlpit Hill,
Edenbridge,
TN8 6JS

Return to school Agreement.

Childs Name:

We all need to feel comfortable with the new normal. This contract sets out what the pre-school and parents will do to make all staff, children and families feel as safe as possible and the children feel secure and cared for. The safety of both staff and children at St Paulinus is paramount and we have introduced policies to minimise risk.

What we will do:

- Keep following government guidelines and legislation.
- Follow our normal policies and covid-19 policy.
- Keep you updated.
- Reduce our daily numbers to enable the children to be in the same small group each session that they attend to minimise risk.
- Manage the setting in a way that aims to support the adults to social distance as much as possible.
- Continue to support children who can't attend, via face book and telephone.
- Set a more extensive cleaning schedule to follow daily. This cannot be guaranteed clinically clean.

What we need you to do:

- READ AND UNDERSTAND THE PRE SCHOOL COVID-19 POLICY AND ADHERE TO IT.
- Understand that the children will not be social distancing but will remain in their allocated bubble.
- Keep following government guidelines and legislation.
- Keep 2 meters away from staff and not enter the setting.
- Adhere to the 2 meter distance outside pre school and arrive at your allotted time for collection and drop off. Don't be early.
- Keep track of your child's and family's health and take daily temperature checks
- Keep your child off if they are showing **any** signs of any illness, **especially** covid-19 (see appendix 1).
- Provide your child with a drink each day, this will be sent home to be refilled for their next session
- Parents must be available to collect ill children immediately.
- Do not bring toys or dressing up in from home.
- If your child requires a clean nappy or change of clothes, send only what may be needed in a plastic bag that can be disposed of at the end of the session,
- In hot weather, supply and apply ALL DAY sun cream before attending the session and ensure hats are supplied and shoulders are covered, we will use the garden as much as possible
- One parent/carer to drop off and collect and do not bring siblings where possible.

- Staff are not required to wear PPE unless they are dealing with a possible COVID-19 case or for intimate care.

Appendix 1

'When a child, young person or staff member develops symptoms compatible with coronavirus, they should be sent home and advised to self-isolate for 7 days. Their fellow household members should self-isolate for 14 days. All staff and students who are attending an education or childcare setting will have access to a test if they display symptoms of coronavirus and are encouraged to get tested in this scenario.

In the case of children, guidance states that: "To access testing parents will be able to use the 111 online coronavirus service if their child is 5 or over [and] will be able to call 111 if their child is aged under 5."

Where the child, young person or staff member tests negative, they can return to their setting and the fellow household members can end their self-isolation.

Where the child, young person or staff member tests positive, the rest of their class or group within their childcare or education setting should be sent home and advised to self-isolate for 14 days. The other household members of that wider class or group do not need to self-isolate unless the child, young person or staff member they live with in that group subsequently develops symptoms.'

Main Symptoms

- High Temperature – this means you feel hot to touch on your chest or back (you do not need to measure temperature)
- New, continuous cough – this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough it will be worse than usual)
- Loss or change to your sense of smell or taste – this means you've noticed you cannot smell or taste anything. Or things taste or smell different to normal.

Most people with coronavirus have at least one of these symptoms.
